## Turn Route, Stops and other layers on/off on map for better visibility

The image shows a software interface for managing map layers. A window titled "Turn Route Layers on/off" is open, displaying a list of "Operational layers". A yellow callout box points to a menu icon in the top right of the window, which has opened a dropdown menu with the following options: "Turn all layers on", "Turn all layers off", "Expand all layers", and "Collapse all layers". Another yellow callout box points to the "Metro Stations Served" layer, which has a small 'M' icon next to it. A third yellow callout box points to the "Loudoun to DC Commuter Bus" layer, which is expanded to show a list of sub-layers: "Commuter Stops", "Commuter Routes", "Dulles North", "Dulles South and Brambleton", "Purcellville, Harmony & Leesburg", "Ashburn North and Christian Fellowship", "Commuter Metro Connections", and "Local Loudoun Bus".
